

Maths Challenge

Year 1 -Autumn Term 2

I can count to 50 forwards and backwards from any number.

By the end of this half term, children should be able count to 50 forwards and backwards from any number

For example - "Count forwards starting from the number
20 to 35"

"Count backwards from the number 35 to 29"

Key Vocabulary

Counting
Numbers
Forwards
Backwards
Count back
Count on
Start from

The important aspect of this challenge is that children can count forwards and backwards and from any number without the use of a number line!

Mastering the facts

Once your child has mastered how to count from 0-50 they are ready to move on to learning to count backwards from any number up to 50. Make sure your child says the number clearly ensuring correct pronunciation. Once your child is secure at counting from 0-50, forwards and backwards, practise counting from different starting points. E.g. 21..... 32,43....

Top Tips

The secret to success is practising little and often. You could practise while walking to school or during a car journey. Online games can also help children practise their maths skills (*please see our website for suggestions*).
