

Maths Challenge

Foundation - Summer Term 2

I can recall the doubles facts for numbers 1 to 5.

By the end of this half term, children should be able to recall the doubles facts for the numbers 1 to 5.

Key Vocabulary

Doubles

Groups of

Counting

The important aspect of this challenge is that children can understand the concept of what it means to double and halve a number.

Mastering the facts

To support your child mastering the concept of doubling it is best to use real life practical objects to support them so that they can see the problem visually. E.g. If I have two sweets can you double it and get two more?

Top Tips

The secret to success is practising little and often. You could practise while walking to school or during a car journey. Online games can also help children practise their maths skills (*please see our website for suggestions*).
