

Maths Challenge

Foundation - Spring Term 1

I can count to 20 forwards and backwards (orally)

By the end of this half term, children should be able to count forwards and backward to 20.

Key Vocabulary

Counting
Numbers
Forwards
Backwards

The important aspect of this challenge is that children can count forwards and backwards and from any number!

Mastering the facts

Once your child has mastered how to count from 0-10 they are then ready to move on to learning the teen numbers (which are a little bit more tricky). Say the numbers slowly and clearly ensuring correct pronunciation. Again you could practise singing nursery rhymes and number songs. For a further challenge once your child is secure at counting from 0-20 practise counting from different starting points. E.g. 11..... 12,13....

Top Tips

The secret to success is practising little and often. You could practise while walking to school or during a car journey. Online games can also help children practise their maths skills (*please see our website for suggestions*).
